WORK EXPERIENCE

Intuit

Software Engineer 2

Bengaluru, India

Feb 2026 - Present

- Built an **AI-assisted workflow** for reviewing, editing, and bulk-applying accounting-dimension recommendations, combining centralized **React** state management with **Kafka** consumers and outbox events.
- Engineered an event-driven **data pipeline** that ingests third-party data, provisions analytics infrastructure from schema events, and surfaces customer KPIs across **multiple domains**; reduced application onboarding from **months to weeks**.
- Co-led Intuit's **first dynamic RBAC** implementation, enabling user-created custom objects to self-register as authorization resources with custom, per-object **CRUD permissions**.
- Spearheaded a system that automatically manages multi-entity dimension lifecycle changes, processing **~4,500 companies/month** and reducing Jira support toil by **~90%** (from ~50 to 4-5 tickets/month).

Software Engineer 1

Aug 2024 - Jan 2026

- Built multi-entity financial-dimension capabilities across **React, GraphQL, and backend services**, enabling consolidated businesses to manage shared dimensions across companies.
- Co-led bulk application of financial dimensions across transaction line items, reducing repetitive bookkeeping and driving a **7× increase in feature engagement**.
- Launched **AI-powered dimension recommendations** for transaction forms, increasing consistent categorization; recommendations drove **33%** of dimension interactions after launch.
- Launched a secure self-service SQL platform with scoped authorization, read-only database access, query validation, audit logging, and guardrails, accelerating production data-fix verification.

Salesforce

Associate Member of Technical Staff

Bengaluru, India

Jun 2024 - Aug 2024

- Created core-engineer onboarding documentation and contributed to a **MuleSoft** developer guide, accelerating new contributors to Industries Cloud.

Cisco

Software Engineer Intern

Bengaluru, India

Jan 2024 - May 2024

- Contributed to the **Secure Cloud Control (SCC v2)** project in the **XDR team**.
- Conducted functional, automated, and client-side performance testing with **Jest** and **Playwright**, comparing SCC v1/v2 while maintaining at least 90% code coverage.
- Automated PR notifications via Webex APIs; integrated micro-apps with **Webpack Module Federation**.
- Identified and resolved multiple bugs in the internal UI library and other products.

EDUCATION

National Institute of Technology, Hamirpur

Bachelor of Technology, Computer Science & Engineering

CGPA: 9.66/10 (**Gold Medalist**)

Hamirpur, India

Dec 2020 - May 2024

ACHIEVEMENTS

🏆 **ICPC** | Achieved recognition as an International Collegiate Programming Contest (**ICPC**) 2023 Regionalist with team **Deadlock**, demonstrating exceptional algorithmic problem-solving skills

🏆 **Cisco** | Selected as one of **23** finalist teams for **Code with Cisco** codathon out of over **60,000** participants.

Competitive Programming

- CodeChef** : **6-star** (peak 2211); top **400** of **200K+** Indian users; **30th/2.9K+** in Cook-Off 2022 Div-2.
- Codeforces** : **Expert** (peak 1671); **143rd/18K+** globally (39th India) in Round 820.
- LeetCode** : Peak rating **2112**, ranking among the top **1.6%** of users.

SKILLS

Languages	TypeScript, Java, Kotlin, Python, SQL, GraphQL, C/C++
Databases	MySQL, PostgreSQL, MongoDB, Redis
Frameworks	React, Spring Boot, Node.js, Express, FastAPI
Tools	AWS, Kafka, Docker, Kubernetes, Gatling, Playwright, Git
Core	Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Distributed Systems
