WORK EXPERIENCE

Intuit

Bengaluru, India

Software Engineer 2

Feb 2026 - Present

- Built an **AI-assisted workflow** for reviewing, editing, and bulk-applying data recommendations, combining centralized **React** state management with high-throughput **Kafka consumers** and outbox event patterns.
- Engineered an event-driven pipeline using **standardized System Objects** (vertical schemas) to ingest third-party data and auto-provision analytics infra from schema events, cutting app onboarding to Intuit Enterprise Suite from **months to weeks**.
- Pioneered Intuit's **first dynamic RBAC implementation**, enabling user-created custom objects to self-register as authorization resources with **granular, per-object CRUD permissions**.
- Spearheaded an automated lifecycle engine processing **~4,500 entities/month**, eliminating recurring customer support inquiries and reducing operational support toil by **~90%** (from ~50 to 4-5 tickets/month).

Software Engineer 1

Aug 2024 - Jan 2026

- Delivered end-to-end multi-entity capabilities across **Java, Kotlin, GraphQL, and React**, enabling consolidated enterprise systems to seamlessly manage shared business entities across multi-company deployments.
- Co-led **bulk metadata tagging** across transaction line items, eliminating repetitive manual workflows and driving a **7× increase in feature engagement**.
- Shipped **AI-assisted recommendation services** for high-volume financial transaction forms, driving **33%** of user interactions post-launch.
- Launched a secure **self-service database access platform** featuring read-only DB access, query validation, and audit guardrails to accelerate production data-fix verification and **incident response**.

Salesforce

Bengaluru, India

Associate Member of Technical Staff

Jun 2024 - Aug 2024

- Created core-engineer onboarding documentation and contributed to a **MuleSoft** developer guide, accelerating new contributors to Industries Cloud.

Cisco

Bengaluru, India

Software Engineer Intern

Jan 2024 - May 2024

- Contributed to core cloud security microservices for **Secure Cloud Control (SCC v2)** within the **XDR team**.
- Built automated unit, integration, and performance tests using **Jest** and **Playwright**, maintaining **at least 90% code coverage**.
- Automated event notifications via Webex APIs and integrated micro-apps using **Webpack Module Federation**.
- Diagnosed and resolved production bugs across internal core libraries and **distributed cloud UI components**.

EDUCATION

National Institute of Technology, Hamirpur

Hamirpur, India

Bachelor of Technology, Computer Science & Engineering

Dec 2020 - May 2024

CGPA: 9.66/10 | **Gold Medalist, Class of 2024**

ACHIEVEMENTS

🔵 **Intuit** | **2× BU-wide Quarterly Award winner** - for high-delivery impact and operational excellence.

🏆 **ICPC** | Achieved recognition as an International Collegiate Programming Contest (**ICPC**) 2023 Regionalist with team **Deadlock**, demonstrating exceptional algorithmic problem-solving skills

🏆 **Cisco** | Selected as one of **23** finalist teams for **Code with Cisco** codathon out of over **60,000** participants.

Competitive Programming

- CodeChef** : **6-star** (peak 2211); top **400** of **200K+** Indian users; **30th/2.9K+** in Cook-Off 2022 Div-2.
- Codeforces** : **Expert** (peak 1671); **143rd/18K+** globally (39th India) in Round 820.
- LeetCode** : Peak rating **2112**, ranking among the top **1.6%** of users.

SKILLS

Languages	Java, Go, Kotlin, TypeScript, Python, C/C++, SQL, GraphQL
Databases	MySQL, PostgreSQL, MongoDB, Redis
Frameworks	React, Spring Boot, Node.js, Express, FastAPI
Tools	AWS, Kafka, Docker, Kubernetes, Gatling, Playwright, Git
Core	Distributed Systems & Microservices, High-Throughput APIs, System Reliability (SRE/On-call), DBMS, Operating Systems
